## **DETAILED ACTION**

1. The office acknowledges the cancellation without prejudice of claims 1-27 in the remarks received 9/8/2005

## Allowable Subject Matter

2. Claims 28-34 are allowed.

## **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: Upon review of the prior art of record, no process of suppressing corrosion in a water-cooled nuclear reactor, as claimed by the Applicant, exists in the nuclear art. Additionally, although it was known at the time of filing that TiO2 does not always exhibit super high-hydrophilic properties and/or because a prior art device teaches the use of a TiO2 film/coating, the TiO2 film/coating is not necessarily a super high-hydrophilic film/coating.

These statements are not intended to necessarily state all the reasons for allowance or all the details of why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3663
